

AURO

NATURAL PAINTS

AURO Product assortment for retailers focussed on products other than paint or construction materials

(e.g. healthfood/ wholefood/ organic food stores, drugstores, furniture shops, toy shops, household supplies, etc.)

These are Auro products with little or no need of explanation which makes them easy to sell for retailers who cannot or do not want to spend too much time on product information.

Garden Furniture:

Auro Garden furniture cleaner no. 811

The strong cleaning power of the Auro Garden furniture cleaner helps you to effectively remove unaesthetic soilings and greying of garden furniture. With the use of Auro Garden furniture cleaner you contribute to the protection of the environment in your personal sphere.

The natural ingredients of this product do not leave any residues. Their biological degradation is completed within 18 days. After the garden furniture is cleaned, we recommend to treat the wood with an Auro Garden furniture oil.

Available in a retail display with 8 x 0,5 L.

Auro garden furniture oil no. 102

Rain, sun and daily use can damage the wood. Garden furniture made of wood then becomes unattractive or even useless. Protect your garden furniture against the influences of the weather and you will be able to enjoy it for many years to come.

The Auro Garden furniture oils are available in three colour tones, teak (no. 102-81), bangkirai (no. 102-85), and natural (no. 102-92). The "natural" oil has a white pigmentation. The pigmentation gives the surface a fresh colouring and enhances the natural wood tone.

Available in 0,75 L.

Terraces

Auro Terrace cleaner no. 801

Following the winter, weather, moss, algae and soiling have taken their toll on the appearance of the terrace. A quick and effective cleaning with AURO Terrace Cleaner restores its fresh look for the new summer season.

Using AURO Terrace Cleaner contributes to the protection of your immediate environment. No surfactants are spread into the garden beds that are difficult to degrade or don't degrade at all. A study showed that 98% of the organic ingredients mineralize within 8 days. Complete degradation takes place within 18 days.

Available in a retail display with 8 x 0,5 L.

Auro Terrace oil no. 110

Rain, sun and daily use can damage wood and give it an unsightly appearance. Protect your wooden terraces by giving them a moisture-controlling, easy-care coating that at the same time also protects the wood against sunlight.

Using AURO Terrace oils in the colours teak (110-81), bangkirai (110-85) and larch (110-89) has a water and dirt-repellent effect. The oils actively breathe and do not flake. The pigmentation produces a fresh, natural wood colour and ensures enhanced UV protection. You will have a durable surface that is easy to care for.

Available in 0,75 L, 2,5 L, and 10,0 L.

Wood surfaces

Auro Care oil no. 106 Auro Care wax no. 107

Treatment with natural oils and waxes gives wood surfaces a brilliant finish and enhances the natural grain and structure of the wood type used. The surfaces are protected against soiling and water and are given antistatic properties as well. In contrast to varnished surfaces, substrates treated with oils and/or waxes can breathe, so they can still contribute to a pleasant room climate.

Available in 1 L.

Auro Worktop oil no. 108

A solid wood kitchen as a once-in-a-lifetime purchase is the dream of many a family. However, regular care is essential to ensure that the worktop and front panels remain beautiful after years of intensive use. This is when AURO Worktop Oil is required to protect the wood from grime and water, to highlight the specific grain and structure of the wood, maintain the breathing properties of the wood surfaces and contribute to the control of the room climate.

Available in a retail display with 12 x 0,375 L.

Auro Cembra oil furniture polish no. 441

For the regular care of waxed furniture. Because of its content of spirits of arve, particularly suitable for furniture, cupboards and chests as an insect repellent (e.g. moths, beetles, etc.).

Polish containing wax and alcohol with good working properties. Antistatic effect and insect repellent effect. Very pleasant odour.

Available in 0,25 L glass bottles.

Painted surfaces

Paint and stain cleaner no. 435

Mild cleaning agent based on pure vegetable soaps and sugar detergents for cleaning surfaces treated with lacquer paints or woodstains. Readily soluble concentrate with good emulsifying properties and very good cleaning action.

Available in 0,5 L.

Floors

Auro Floor cleaner no. 427

Concentrate for the mild cleaning and care of painted wood and cork surfaces. Ideal cleaner for the use on floors, especially sealed wood floors, laminate, linoleum and tiles.

Auro Floor care no. 437

Concentrate for the mild cleaning and care of oiled and waxed surfaces, especially for floors.

Both, no. 427 and 437, are available in 1 L.

Mould prevention

Auro Mould remover no. 813

AURO Mould remover is an effective and material saving remedy for mould problems. Formulated on the basis of natural mineral salts, the product removes existent mould and helps preventing new infestations. AURO Mould remover is free from chlorine.

The product is applicable to mould infestations on walls, ceilings, tiles, stone slabs, gravestones, wood and plastic surfaces. Also for saunas, boats or caravans. Not suited for textiles.

Available in a retail display with 10 x 0,5 L in a spray bottle.

Glue

Auro Contact glue no. 390

Household glue, easy to apply, high adhesive power, good yield, transparent drying. For bonding paper, carton, wood, plastics, metal, glass and more.

The product comes in a practical 75 ml tube.

The sales display holds 16 tubes.

Easter Egg Paints

Easter egg paints no. 500

Easter would not be complete for children and most grown-ups without self-dyed, many-coloured easter eggs. To this purpose Auro offers this seasonal product, a set of Easter egg dyes with four basic tones. Available in a carton box with four small pigment bags.

The retail display holds 48 units.

More products not related to paint or construction materials can be found in our AWALAN range of cleaning and washing products.

General advantages of AURO products

Raw materials:

All Auro products are produced from renewable, organic raw materials that are fully declared.

Environment:

No petrochemical ingredients are used. All products are compostable.

Health:

Natural ingredients are used throughout. Our transparent raw material policy discloses all ingredients to people prone to allergies.

Product quality:

High quality standard is proven by very good test results carried out by the highly reputed consumer magazine *Ökotest*.

Application:

All Auro products mentioned above combine easy application and good work results.

Price:

Auro products have a very good price-performance ratio.
